WE'RE HEADING TO
BARBADOS

BARBADOS
MINISTRY *of*
TOURISM

In light of the fluidity of the COVID-19 pandemic, these protocols are likely to change. Travellers are encouraged to check barbadostravelprotocols.com for updates.

REQUIREMENTS FOR ENTRY INTO BARBADOS

- Complete Online Immigration/Customs form at travelform.gov.bb and submit 24 hours prior to travel.
- To be considered for process fast-tracking upon arrival, persons are advised to take a COVID-19 PCR test from an accredited facility 72 hours prior to travel.¹
- Be sure to submit your results online at travelform.gov.bb and travel with a copy of your test results.
- Travellers without a negative COVID-19 PCR test result will be required to take a test upon arrival.²
- Remember to wear a mask on your flight.

¹If you are travelling from a Low-Risk country and have not visited a High-Risk country within 21 days of your arrival to Barbados, you may present a valid test result for your test taken within one week prior to travel to Barbados.

²The type of public health measures taken upon your arrival and during your stay will be dependent on the risk category of the country you are travelling from.

UPON ARRIVAL HIGH-RISK COUNTRIES

- Before disembarking, have your COVID-19 PCR test result visible (if applicable). These results will be screened for validity.
- Masks must be worn while at the airport in Barbados.
- All travellers must undergo a health screen
- Persons travelling from High-Risk countries with a valid negative COVID-19 PCR test result will be quarantined at a designated holding hotel or villa at their own expense, or free of charge at a government facility, and will be monitored daily for the onset of symptoms. These persons will be required to take a second COVID-19 PCR test within 7 days after the last test accepted by the Ministry of Health and Wellness. Persons will typically be released once the test result is negative.
- If you haven't submitted proof of a negative COVID-19 PCR test result or the test is not validated, you will be required to take a test.
- If your test is positive, you will be transported to an alternative accommodation for isolation, where you'll stay until you've recovered. Upon recovery, you can resume your vacation or you may return home
- Those persons who are deemed to have been in close contact with a positive case will be quarantined at approved facilities.

High-risk countries:

Includes USA, Brazil, India, Mexico, Argentina, Peru, Colombia, South Africa, Indonesia, Philippines and Russia.

A visitor who does not present a valid negative result and declines testing upon arrival will be denied entry into Barbados.

The Ministry of Health and Wellness reserves the right to require testing of any traveller to the island regardless of documentation presented.

*Monitoring includes interviews and assessments with public health professionals. Should circumstances arise during the period of monitoring, you may be asked to undergo an additional COVID-19 PCR test.

UPON ARRIVAL MODERATE-RISK COUNTRIES

- Before disembarking, have your COVID-19 PCR test result visible (if applicable). These results will be screened for validity.
- Masks must be worn while at the airport in Barbados.
- All travellers must undergo a health screen
- Persons travelling from Moderate-Risk countries who arrive with a valid negative COVID-19 PCR test result may advance to Immigration, Baggage Claim and Customs and will be permitted to leave the airport. Those persons travelling from Moderate-Risk countries will be monitored for 7 days from arrival.
- If you haven't submitted proof of a negative COVID-19 PCR test result or the test is not validated, you will be required to take a test¹
- If your test is positive, you will be transported to an alternative accommodation for isolation, where you'll stay until you've recovered. Upon recovery, you can resume your vacation or you may return home
- Those persons who are deemed to have been in close contact with a positive case will be quarantined at approved facilities.

*Monitoring includes interviews and assessments with public health professionals. Should circumstances arise during the period of monitoring, you may be asked to undergo an additional COVID-19 PCR test.

Moderate risk countries:

Includes Canada, UK, Spain, Italy, Germany, France, Portugal, Sweden, Australia, Egypt, Ghana, China, Japan, Sri Lanka, Suriname, Haiti, Dominican Republic and Jamaica.

A visitor who does not present a valid negative result and declines testing upon arrival will be denied entry into Barbados.

The Ministry of Health and Wellness reserves the right to require testing of any traveller to the island regardless of documentation presented.

UPON ARRIVAL LOW-RISK COUNTRIES

- Before disembarking, have your COVID-19 PCR test result visible (if applicable). These results will be screened for validity.
- Masks must be worn while at the airport in Barbados.
- All travellers must undergo a health screen
- Persons travelling from Low-Risk countries who arrive with a valid negative COVID-19 PCR test result may advance to Immigration, Baggage Claim and Customs and will be permitted to leave the airport.
- If you haven't submitted proof of a negative COVID-19 PCR test result or the test is not validated, you will be required to take a test¹
- If your test is positive, you will be transported to an alternative accommodation for isolation, where you'll stay until you've recovered. Upon recovery, you can resume your vacation or you may return home.
- Those persons who are deemed to have been in close contact with a positive case will be quarantined at approved facilities.

Low-Risk countries:

Includes Uruguay, Cuba, New Zealand, Finland, Norway, Iceland, Greenland, Guyana and CARICOM States except those indicated in the Moderate-Risk category.

A visitor who does not present a valid negative result and declines testing upon arrival will be denied entry into Barbados.

If you are travelling from a Low-Risk country and have not visited a High-Risk country within 21 days of your arrival to Barbados, you may present a valid test result for your test taken within one week prior to travel to Barbados.

The Ministry of Health and Wellness reserves the right to require testing of any traveller to the island regardless of documentation presented.
